Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

A 7-7/8" hole has been drilled to 6290 ft. Dual Induction-
Laterolog, FDC-CNL-GR-Caliper BHC sonic GR logs and mud
logging unit indicate well to be a dry hole. It is proposed
the well be plugged and abandoned as follows:

120 sacks Class "A" cement plug from 5900 - 6290
95 sacks Class "A" cement plug from 4050 - 4250
120 sacks Class "A" cement plug from 2250 - 2450
55 sacks Class "A" cement plug from 1350 - 1500
25 sacks Class "A" cement plug from 200 - 250
10 sacks Class "A" cement plug from 0 - 25 ft.

Drilling mud between all cement plugs.

Dry hole marker will be installed, location cleaned and
pits fenced. Pits will be filled and location reseeded
as soon as pits are dry enough to fill.

18. I hereby certify that the foregoing is true and correct

SIGNED

Jack D. Cook
