(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well was drilled to total depth 1550 feet (6 1/4" hole). Ran IES, CNL, FDC-GR logs. No tests run. Log calculations indicate well to be non-commercial. After receiving plugging instructions from the U.S.G.S. well was plugged as follows:

Plug #1 - 75 sacks class "B" cement plug from 1100-1550 feet
Plug #2 - 40 sacks class "B" cement plug from 50-200 feet
Plug #3 - 10 sacks class "B" cement plug from 0-40 feet

Cut 8 5/8" surface casing off four feet below ^{G-H} and welded cap on same. Pits have been fenced, location will be cleaned and restored to U.S.G.S. specification as soon as practical. Well P & A 12:30 p.m 2-2-77.

18. I hereby certify that the foregoing is true and correct
