Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local, area, or regional office for specific instructions.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with the instructions on the back of this form. If there are applicable State requirements, locations on Federal or Indian land should be described in accordance with the instructions on the back of this form. If there are applicable State requirements, locations on Federal or Indian land should be described in accordance with the instructions on the back of this form.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include special information as follows: In addition, such proposals and reports should include reasons for the abandonment; data on any former or present production; fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; if conditioned for final inspection looking to approval of the abandonment.
