Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Due to the creation of Basin Fruitland Coal Gas Pool and NMOCD Orders R-8768 and R-8769, the subject well is now classified and required by NMOCD to be reported as a commingled well. We request that the production on the MMS-3160 be reported as a commingled well with the following approved allocation factors:

Basin Fruitland Coal - 30%  
WAW Fruitland Sand-PC - 70%

I hereby certify that the foregoing is true and correct
