13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Please refer to your letter dated September 12, 1995.

Permission is requested for continued long term shut in status. There is no pipeline to this vicinity and to our knowledge there are no pipeline companies anticipating such installation. Considering current market conditions, it is highly unlikely to be considered an economic venture. We, therefore, anticipate shut in status to continue indefinitely. We request the casing integrity test be waived on this well due to the fact cement was circulated to surface on the longstring cementing of this well. This means there is cement coverage top to bottom on this well. This well is still capable of producing in paying quantities. There have been no gas sales on the well since its completion.
