

9. Well Site Layout:

- (1) See Exhibit "G"
- (2) See Exhibit "H"
- (3) See Exhibit "H"
- (4) The reserve pit will be unlined.

10. Plans for Restoration of Surface:

- (1) All topsoil that is stripped and stockpiled will be replaced and the site will be backfilled, levelled, and contoured. Waste will be buried or hauled away upon completion of drilling.
- (2) Rehabilitation will consist of respreading and contouring stockpiled topsoil. Revegetation will consist of seeding with mixture as specified by BLM or landowner. If the well is dry, a dry hole marker will be erected, and the access road will be plowed, ripped, and re-seeded as requested.
- (3) Prior to rig release, the reserve pit will be fenced and so maintained until the pit is dry enough to backfill.
- (4) If oil is in the reserve pit, it will be removed or the pit will be flagged to discourage livestock, wildlife, and waterfowl from entering the area.
- (5) Rehabilitation will begin immediately after drilling operations are finished. It is expected that all rehabilitation will be completed during the fall of 1981.

11. Other Information:

- (1) The topography of the area generally slopes toward Gallegos Canyon approximately four miles in a southwesterly direction. The surface soils contain sand and shale of the Wasatch formation. Vegetation is comprised of grass, sagebrush, and rabbit brush.
- (2) The area is occasionally used for cattle grazing. The surface owner of record is: Bureau of Land Management
Box 1448
Santa Fe, New Mexico

The Bureau of Indian Affairs has included this area within the Navajo Indian Irrigation Project. In order to avoid interference with sprinkler operation, the wellhead and adjacent facilities will conform to N.I.I.P. requirements.

- (3) The nearest known water source is the San Juan River north of this location. No known occupied dwellings, archeological, historical, or cultural sites exist in the immediate area.

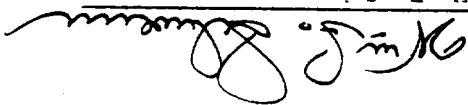

12. Lessee's or Operators Representative:

- (1) Mr. Fred Crum
Box 400
Aztec, New Mexico 87410
(505) 334-6003

13. Certification:

(2) Mr. W. F. Schwenn
DEPCO, Inc.
1000 Petroleum Building
Denver, Colorado 80202
(303) 292-0980

I hereby certify that I, or persons under my direct supervision have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by DEPCO, Inc. and its' contractor in conformity with this plan and the terms and conditions under which it is approved.

W. F. Schwenn
