Re: Application to Downhole
Commingle Jack Frost "B"
Well No. 1-E, SW/4 SW/4,
Section 27, Township 27
North, Range 10 West, NMPM
San Juan County

Dear Mr. Schroeder:

I am unable at this time to approve downhole commingling of this well due to the pressure differential. In the cover letter for this application you stated that the Basin-Dakota in this area will undergo a drastic decline in production and bottom hole pressure within the next few months. I would suggest you reapply for downhole commingling at that time.

Sincerely,

Michael E. Stogner
