It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and Division Order No. MC-2913 which authorized the dual completion and required separation of the two zones, is hereby placed in abeyance.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:
