Re: Gulf Oil Corporation  
Fullerton Federal #6E  
B-11-27N-11W

Gentlemen:

Our field investigation on November 24, 1980, indicated that the mud pit overflowed at the above well location subsequent to attempts to cover it while it was still liquid. Such action is in violation of the directives in the attached memorandum. Any further violations will result in legal action and fines.

If you have any questions, please contact this office.

Yours truly,

A handwritten signature in dark ink, appearing to read "Frank T. Chavez".

Frank T. Chavez
