Gentlemen:

Louis Dreyfus Natural Gas Corp. requests approval to surface commingle a pipeline from the Federal #42-33 and Federal #33-31 wells. Because GCNM is declining to connect their gas line to the above mentioned Federal #42-33 well, the intent is to lay the pipeline northwest about 1330' to the Federal #33-31 sales line, and then place a check meter on the line from the Federal #42-33 for allocation purposes.

Enclosed is a copy of the map showing the proposed pipeline.

Sincerely,

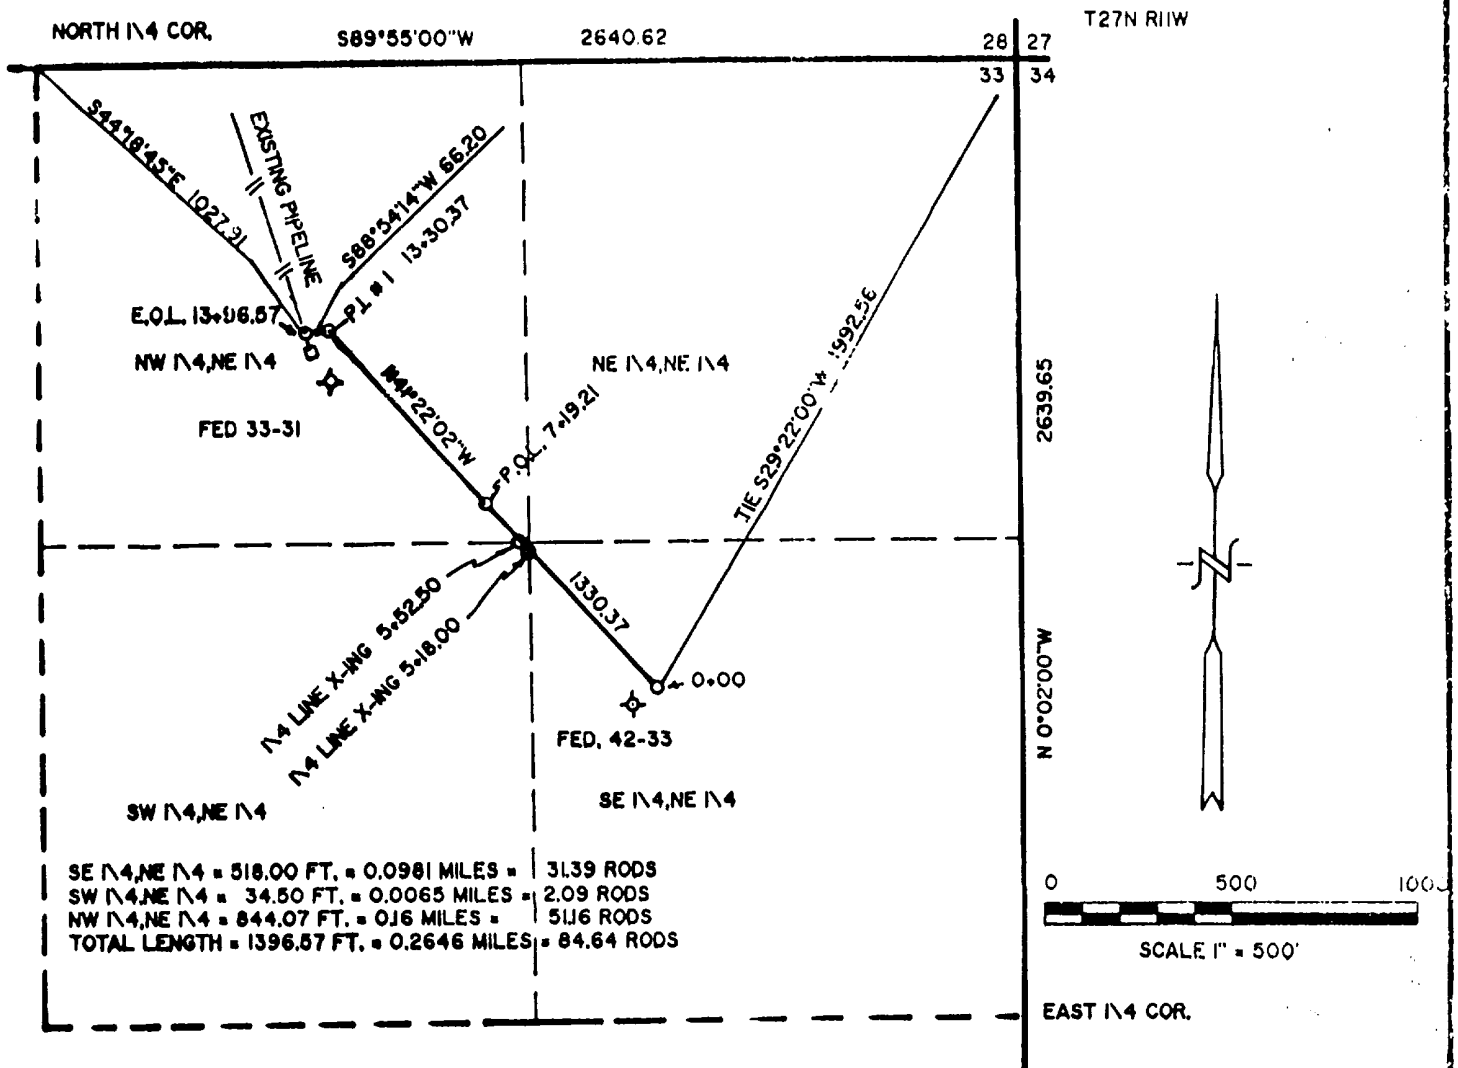

Gene Simer
Production Foreman
