Fed. 30 #44

Mr. Ken Townsend,

This letter is in response to your letter dated April 19, 1994 concerning the status of our Federal 30-44.

I inadvertently omitted this well in my letter dated March 25, 1994 requesting continued shut-in status on four other wells in the same area.

LDNG has tested this well and found it capable of producing gas. At the present time we do not have a pipeline to this well but we hope to have one soon. For this reason I request that Federal 30-44 remain on a shut-in status.

I apologize for the inconvenience caused by this oversight.

Sincerely,
Gene Simer
