17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Commenced sale of gas to N. T. U. A. on March 25, 1982. Well had been shut-in since completion except for short test periods in January and February, (gas was vented). Request our 90 day test period begin as of 3-25-82. This will permit time for getting the Salt Water Disposal System installed and operating.

Temporary disposal in an un-lined pit approved until June 23, 1982, after which the produced water must be disposed of in an approved disposal well or the 2-32 Navajo must be shut in until such disposal is possible.
