Gentlemen:

Attached in duplicate (to each office) are a well location plat C-102 with a sketch of the surrounding conditions and an ownership plat for the above captioned well.

This well was originally staked at 1790 FSL, 1100 FEL. It had to be moved because of proximity to the existing road and the existing well as sketched on the C-102. Geological consideration prevented moving the well to the south and west. The proposed location is the only acceptable site for this well.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours very truly,

TENNECO OIL COMPANY
