13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

An investigation of surface use terms showed that permission to lay a flow line must be obtained from NAPI. The long lead time required to secure such an agreement requires that we request a long term shut-in status for this well. The well will be connected to a sales line as soon as permission is received.
