Attention: Ken Russell

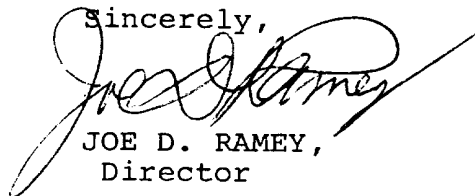

Administrative Order NSL-1641

Gentlemen:

Reference is made to your application for a non-standard location for your Florance Well No. 62E to be located 2155 feet from the North line and 1950 feet from the East line of Section 20, Township 27 North, Range 8 West, NMPM, Basin Dakota Pool, San Juan County, New Mexico.

By authority granted me under the provisions of Rule 5(c)(3) of Order No. R-1670, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY,
Director

JDR/RLS/dr

Gentlemen:

I have examined the application dated 12-20-82
for the Tenneco Oil Co. Florana #62 E G-20-27N-8W
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

There is a well at 1840' N 1800' E and the surrounding
topography won't allow for another standard location, but it
can be moved closer to the existing well. It's approx
350' away now and could be moved to with 200 ft easily
A location of 1950' N 1950' E would put it 186' ft away.

Yours truly,

Jeff A. Edmister

RE: Application for Unorthodox Location
Tenneco Florance 62E
2155' FNL, 1950' FEL
Sec. 20, T27N, R8W
San Juan County, New Mexico

Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

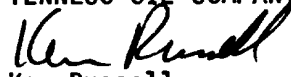

Due to steep topography and the location of an existing well, this well could not be placed where it conforms to state spacing requirements. This is the only geologic and topographic site acceptable.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to the authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours very truly,

TENNECO OIL COMPANY

Ken Russell
Senior Production Analyst

Operator TENNECO OIL COMPANY			Lease FLORANCE		OIL CON 62E
Unit Letter G	Section 20	Township 27N	Range 8W	County San Juan	DIST. 3
Actual Footage Location of Well: 2155 feet from the North line and 1950 feet from the East line					
Ground Level Elev. 6763	Producing Formation Dakota	Pool Basin Dakota	Dedicated Acreage: 320 Acres		

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
