13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Request continuation of long term shut-in.

We are testing the Hugh Lake 2 well in the same area. Water production from this test is limiting gas production. A sales line is installed at the Hugh Lake 2, and we are pumping the well to remove water. We are investigating other methods to lift the water from the Hugh Lake 2. Our success will determine if we can get these wells to produce or need to re-drill to run larger casing.
