12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed)

Anioco Production Company request permission to add a completion in the Blanco Mesaverde Pool and commingle production downhole with the existing Basin Dakota Pool as per the attach procedure.

The Blanco Mesaverde (72319) & the Basin Dakota(71599) Pools are Pre-Approved Pools for Downhole Commingling per NMOCd order R-11363.

The working, overriding, and royalty interest owners in the proposed commingled pools are identical, therefore, no notification of this application need be submitted via certified mail (return receipt).

Production is proposed to be allocated based on the subtraction method using the projected future decline for production from the Basin Dakota Pool. That production shall serve as a base for production subtracted from total production for the commingled well. The balance of the production will be attributed to the Blanco Mesaverde. Attached is the future decline estimate for the Dakota.

Commingling Production Downhole in the subject well from the proposed Pools with not reduce the value of the total remaining production.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
