Re: Dryden #2-E Well  
NE/4SE/4 Sec. 22-T28N-R8W  
San Juan County, New Mexico

Gentlemen:

Pursuant to 104 F.I. of the State of New Mexico Oil Conservation Commission's Rules and Regulations, Koch Exploration Company hereby applies for an unorthodox location for the Dryden #2-E, a Dakota Basin Well located 685' FEL and 1610' FSL (NE/4SE/4) Section 22-T28N-R8W, San Juan County, New Mexico based upon topographic reasons.

Koch desires to have the subject well drilled in the NE/4SE/4 and staked it at the above footage after physically inspecting the area and taking into consideration the existing well in the NE/4SE/4 and the topography which is rough terrain composed of rock and a cliff.

This application for unorthodox location is being sent in triplicate along with a plat that shows the ownership of all leases offsetting the spacing unit for which the unorthodox location is being sought as well as all wells completed thereon. Also attached is a topographic map and waivers from all offset operators.
