If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Approval is requested to install a gas meter run for the above referenced well. Approval was granted 12/10/85 via sundry notice to install a gas flow line from this well to an existing El Paso National Gas Company pipeline. We failed to mention that we need approval to install a meter run at that point. Please see attached map.

This well and well GCU #355 will be metered thru the proposed meter. Allocation will be determined with turbine meters located at each well.
