Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

Due to the proposed well being located on the edge of a mesa and extreme drops in elevations to the west and south, this location does not meet state spacing requirements. This is the only geologic and topographic site acceptable.

Pursuant to the authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirements. A copy of the application is being sent by certified mail to the offset lease holders.
