☐ Conversion to Injection

☐ Other

13. Describe Proposed or Completed Operations

The initial plans to squeeze repair this well are directly dependent upon the necessity to fracture stimulate this coal zone. Because a fracture stimulation and subsequent casing repair cannot be economically justified at this time, a Fruitland Coal recompletion of the offset Cleveland #2 will be performed and provide data necessary to re-evaluate the Cleveland #220.

The following is the anticipated schedule:

4-26-90	Cleveland #2	APD and NSL filed
9-1-90	Cleveland #2	Perform recompletion work
1-1-91	Cleveland #220	Submit plans
3-1-91	Cleveland #220	Perform work

THIS APPROVAL EXPIRES APR 01 1991

14. I hereby certify that the foregoing is true and correct
