Re: Communitization Agreement - Hobbs C State Com Well #2
B- Sec. 02, T-27-N, R-09-W
San Juan County, New Mexico

Gentlemen:

A review of your well file indicates that a notice of intent to drill the above well has been approved by the Oil Conservation Division. The well will be completed as a Basin Fruitland Coal well with the north half of Section 02, Township 27 North, Range 09 West dedicated to the 319 acre proration unit.

Included in the proration unit is State land, held under the following leases: B3148-20 and E1200-2 (El Paso Production as lessee) and B11370-48 (Texaco as lessee). By statute and State Land Office rules, a communitization agreement is required whenever different State lessees or State and Federal or fee lands are included in the same proration unit for a well.

You are hereby notified that prior to production, (assuming the well will be capable of production in paying quantities from the Fruitland Coal formation), a fully executed communitization agreement, in duplicate, together with a \$30.00 filing fee must be submitted for approval by the Commissioner of Public Lands. The enclosed communitization form must be used and said form cannot be altered or changed in any manner. This form may be duplicated but not retyped.

In addition, if the well is communitized, we request that you change the name of the well to include the words "State Com". If you have any questions, please do not hesitate to call Jami Bailey at (505) 827-5745.

Sincerely,
JIM BACA
COMMISSIONER OF PUBLIC LANDS

Floyd O. Prando
