Request for Extension to

September 1, 2001.

13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

LOUIS DREYFUS NATURAL GAS CORP. (LDNGC)
Update on Bringing Wells on Production

1) **Hancock 11-13, 1851 FSL & 1088 FWL sec. 11, T. 27 N., R. 12 W., Lease NMSF-079116**

The Navaho's approved the pipeline plan to allow Louis Dreyfus Natural Gas (LDNGC) to return the Hancock 11-13 to production. However, the BIA changed its form in January and requested that LDNGC revise part of its application on 5/1/2001 to get authority for road-bores. Please see the attached fax from Brian Wood with Permits West. LDNGC is preparing to submit the AFE for the pipeline and recompletion to the Picture Cliffs to partners and begin work on the pipeline. The well should be restored to production by September 1, 2001.

2) **Campbell Federal 25-14, sec 25, T. 27N, R. 12W**

The Navaho's approved the pipeline plan to allow Louis Dreyfus Natural Gas (LDNGC) to return the Campbell to production. However, the BIA changed its form in January and requested that LDNGC revise part of its application on 5/1/2001 to get authority for road-bores. Please see the attached fax from Brian Wood with Permits West. LDNGC is preparing to submit the AFE for the pipeline and begin work on the pipeline. The well should be restored to production by September 1, 2001.

Comments:

Final approvals needed for Campbell 14-25 and Hancock 13-11 pipelines are BIA permits to bore under paved roads. I filed these last October. By the time BIA was ready to approve the permit, BIA realized they had changed their own form in January.

Please sign your name and add your title on the lower left hand of each page. Then FAX ((505) 466-9682) back to me and I will forward to BIA.

Section (E): to be filled in by Regional Road Engineer

The Regional Branch of Roads hereby grants the following exception(s) to this utility crossing permit request (please type): _____

RRE (initials): _____

Section (F): approvals

This permit is hereby issued to the foregoing applicant for the expressed purpose set forth in this application and upon expressed condition that every requirement herein is faithfully performed and all the work to be performed in accordance with the plans, specifications, and requirements stipulated herein.

This permit shall have a term of perpetuity from the date approved below or unless item (13) of Section (A) is met. This permit shall be canceled if installation within the road right-of-way is not completed by _____
