SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to deepen or reentry to a different reservoir.  
Use "APPLICATION FOR PERMIT—" for such proposals

SUBMIT IN TRIPLICATE

1. Type of Well

☐ Oil Well ☒ Gas Well ☐ Other

2. Name of Operator

Bonneville Fuels Corporation

3. Address and Telephone No.

1660 Lincoln, Suite 1800, Denver, CO 80264 (303) 863-1555

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

870' FSL, 1660' FEL Sec 11(O) T27N R11W

5. Lease Designation and Serial No.

SF078094

6. If Indian, Allottee or Tribe Name

7. If Unit or CA, Agreement Designation

8. Well Name and No.

Fullerton Fed. 11-34

9. API Well No.

3004529177

10. Field and Pool, or Exploratory Area

West Kutz PC

11. County or Parish, State

San Juan, NM

12. CHECK APPROPRIATE BOX(S) TO INDICATE NATURE OF NOTICE REPORT, OR OTHER DATA

TYPE OF SUBMISSION

- ☒ Notice of Intent  
☐ Subsequent Report  
☐ Final Abandonment Notice

TYPE OF ACTION

- ☐ Abandonment  
☐ Recompletion  
☐ Plugging Back  
☐ Casing Repair  
☐ Altering Casing  
☐ Other
- ☐ Change of Plans  
☒ New Construction  
☐ Non-Routine Fracturing  
☒ Water Shut-Off  
☐ Conversion to Injection  
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Bonneville Fuels requests permission to install a 2" welded natural gas pipeline (yield pressure=200-400 psig) to connect the above referenced well (newly drilled & completed SW/SE Sec 11-27N-11W:Pt.A in Exhibit #1) to the BFC Gas Gathering System Pt.E in the SW/NE Sec 14-27N-11W. (See Exhibit #1): A distance of approximately 4,300'. All of the proposed pipeline is on Lease # SF078094. All of the proposed gas pipeline will be buried at a depth of 48" except for dogleg riser and isolation valve at Pt.E and a possible drip at Pt.B. The pipeline will be constructed to API standards and pressure tested to 1000 psig for 24 hrs. The proposed pipeline route is on the south side of the newly constructed lease access road for approx 400' from Pt.A to Pt.B & on the north side of the newly constructed lease access road for approx. 1400' from Pt.B to Pt.C. From Pt.C to Pt.D (approx 2300') the pipeline route is on the northwest side of the existing lease access road constructed in the 1950's. From Pt.D to Pt.E (tie-in) the route crosses 2 existing lease access roads & ties into the existing BFC Gathering System on the west side of a cut-off turn (approx 200'). BFC is seeking a pipeline ROW 40' wide and adjacent to or under all of these lease access road segments. The proposed ROW along/under the newly constructed lease access road segment (Pt.A to Pt.C) was surveyed for Cultural Resources in 1994 (CASA Report #94-56) and NO Cultural Resources were identified. A Cultural Resource survey of the proposed route between Pt.C & Pt.E (approx 2500') will be conducted on 3/8/95 by CASA Associates. This existing access has been used since the 1950's. No Cultural Resources are anticipated on this route. If significant Cultural Resources are found on this proposed route, then an alternate route will be sought. All disturbance will be recontoured & reseeded in the summer of 1995 for return to use as grazing land.

14. I hereby certify that the foregoing is true and correct
