13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximated duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc requests permission to add in the completion of the Otero Chacra formation with the permitted Blanco Mesaverde formation. A downhole commingling request has been sent to the NMOCD requesting downhole commingling approval at the initial completion. XTO Energy plans on completing the Blanco Mesaverde first, setting a RBP above this zone, completing the Otero Chacra, pulling the RBP and turning both zones to sales. Once approval has been received from the NMOCD a copy will be sent to this office of the BLM with an accompanying notice of intent.

- Allocation factors must be established and submitted for approval for the mesaverde and chacra formations within this well.
