Dear Sirs:

Please reference your letter of June 1, 1995 (File: NMSF-077383 et al. (WC) 3162.3-2 (07337)) requesting the status on our J. C. Davidson F No. 1 well.

Redwolf Production, Inc. purchased this well from Meridian Oil in September of 1994, and intend to return this well to production. We are currently making arrangements to set a gas sales meter for this well, since its previous sales meter had been abandoned. We anticipate having this meter in place within six months, pending approval of the right-of-way clearance. We request a one year continuation of this well's shut in status due to the lack of a gas sales connection. In all likelihood, this well will be returned to production well within this period.

If you have any questions, or need additional data, please give me a call at (505) 326-4125. Thank you for your consideration in this matter.

THIS APPROVAL EXPIRES APR 21 1996

If the well is not returned to production by 4/21/96, a casing integrity test and a production verification test is required.

Sincerely,

Dana L. Delventhal
