					It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If changes were made in the casing, state fully, and if any casing was "struck" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of charges. If pipes or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
