WATER SHUT-OFF ☐FRACTURE TREATMENT ☐SHOOTING OR ACIDIZING ☐(Other) ☐REPAIRING WELL ☐ALTERING CASING ☐ABANDONMENT* ☐(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

A second approval is requested to retain this well in its present temporarily abandoned status. It is being held to be used as a replacement well in the event a problem develops in one or both of the producing formations in the McCulley #3 located in the same quarter section as the McCulley #5. The most recent bradenhead tests indicate there is no evidence of a casing failure. The bradenhead has been left open. Both it and the surface equipment are being checks periodically to insure that the condition of the well does not change.

TEMPORARY ABANDONMENT
EXPIRES

JUN 1 1977

JUL 6 1976

U. S. GEOLOGICAL SURVEY

18. I hereby certify that the foregoing is true and correct
