Denver 20, Colorado

Re: Walter G. Knauff #1 Knauff
G-31-20N-10W

Dear Sir:

The above well which was originally completed as a producing gas well was disconnected from the pipeline in November, 1956. Nothing has been filed subsequently with this office indicating that the well has been either permanently or temporarily abandoned.

Will you please indicate your intention with respect to either permanently plugging and abandoning this well or placing it back on production.

Yours very truly

Emery C. Arnold
Supervisor, Dist. #3
