Denman Dnauff #1-C 1015/N & 1650/W
located in 31-28N-10.

Please check if this well should be considered Plugged & Abandoned. It might be that the U.S.G.S. people have a plugging a plugging report, already?

Thanking You,

BY *H. T. Williams*

GP. We have a file full of correspondence with the U.S.G.S. about this well. Concerning it, they are not going to attempt to produce it. He has been saying it's plugged as yet and as it is on Federal land we may have trouble getting it plugged. I will contact the USGS again about it.
