Carlsbad, New Mexico

Gentlemen:

We have just received Form C-122-B, Initial Potential Test, filed on your #1 Pipkin well in the NE quarter Section 36-28N-11W. The form was filed by W.J. McConathy of Geoelectric, Incorporated and it states on the face of the test that this is a re-test after workover. We will grant you an allowable based upon results after workover when you have re-filed Form C-104 showing the nature of the workover.

Yours very truly

Emery C. Arnold
Supervisor, District #3
