If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Amoco Production Company request permission to preserve this wellbore for the present time pending results of Fruitland 160 acre infill evaluation. At present time Gallego Canyon Unit 229E has been permitted in the Fruitland Coal as a replacement for this well. Please advise if you need any additional information in order to maintain the wellbore as a shut-in well at the present time.
