### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

In accordance with the New Mexico Oil Conservation Commission Order NoR-2214 authorizing Pan American to institute a pressure maintenance project in the Cha Cha Gallup Pool, we propose to convert Southeast Cha Cha Unit No. 17 to an injection well for injection of water into the Gallup formation. Water will be injected into the upper Gallup Zone only.

I understand that this plan of work must receive approval in writing by the Geological Survey before operation may be commenced.
