Gentlemen:

I have examined the application dated Dec 24, 1975
 for the Curtis Little USA Gentle #2 L-17-28N-11W
 Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

*This request is based on geology.
 I have no objection to its approval
 if you have waivers from the
 offset operators.*

Yours very truly,

Al Kendrick

Mr. Joe D. Ramey, Director
Oil Conservation Commission
State of New Mexico
P.O. Box 2088
Santa Fe, New Mexico 87501

Dear Sir:

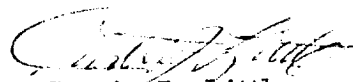

A request is made for administrative approval of an unorthodox location for a 1400' Fruitland gas test location 905' FWL and 2165' FSL of Section 17, T 28N, R 11W, Pinon Fruitland Gas Field, San Juan County, New Mexico.

Consent waivers have been obtained verbally from all offsetting leasehold owners and letters from Amoco and Keyes should be in your office within the next few days.

This request is to increase the net feet of porous gas sand reservoir and to get enough distance to minimize fracing into the dryhole which is 75 feet west and 345 feet south of the proposed location. The dry arroyo immediately east and south of our proposed location was a surface problem.

Your consideration of this request will be greatly appreciated.

Yours very truly,

Curtis J. Little
