Farmington Completion

(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.) *

The Farmington Sand perforations 1044' - 1054' will not flow gas
continuously due to liquid accumulation in the annulus. Therefore,
the Farmington Sand is currently deemed non-commercial and a flow
test was not conducted. This well will produce from the Pictured
Cliffs formation only.

18. I hereby certify that the foregoing is true and correct
