POST. 3

Dear Sir:

Reference is made to your letter of June 8, 1994 requesting updated status of three Gallegos Canyon Unit wells operated by BHP Petroleum (Americas) Inc..

1. GCU #41 - Included in the 1994 POD and will be recompleted to the Fruitland Coal during this fiscal year. *SF-079346A 32-28N-12W*
2. GCU #7 - Recompleted from the Pictured Cliffs to the Fruitland Coal in May 1992 and is currently waiting on pipeline connection. *I-189-Ind-8870 30-28N-12W*
3. GCU #267 - Inadvertently overlooked and not included in the 1994 POD for the unit. A review of the completion history and open hole logs indicates that this well is an excellent candidate for restimulation in the Pictured Cliffs interval. Therefore, an amended POD will be submitted to include this well. *SF-079907 23-28N-12W*

If you have any questions or need additional information, please contact me directly at (713) 961-8423.

Sincerely,

Carl Kolbe
