13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well was to be plugged by 3/31/2002. Upon inspection of the location, it was discovered that NAPI has planted winter wheat around this well. It is not possible to move a rig to location to pull the tubing at this time. We request extension of the time by which this well must be plugged. As soon as the wheat is cut, the well will be plugged.
