Re: Unorthodox Well Location - Gallegos Canyon Unit,
Number 281

Gentlemen:

Energy Reserves Group, Inc. requests approval of an unorthodox location on its Well Gallegos Canyon Unit #281.

The site is located 2480' FSL & 2360' FWL of Section 25, T28N-R12W. The purpose of this request is for topographical reasons. Please see attached topo map.

The orthodox location for the well would be interfering with farming operations within the Block One Area of the Irrigation Project. To move the location a sufficient distance to eliminate being in the cultivated area requires an unorthodox site. The site as proposed will be out of the farming land and will not interfere in any way with N.A.P.I. operations.

Amoco Production Company is the Gallegos Canyon Unit Operator with Energy Reserves Group, Inc. being a sub-operator of the Pictured Cliffs Formation. Please see attached plat of the Gallegos Canyon Unit Area and the Pictured Cliffs Participating Area.

Amoco Production Company has been notified by certified mail this date.

If any additional information is required, please advise.

Very truly yours,

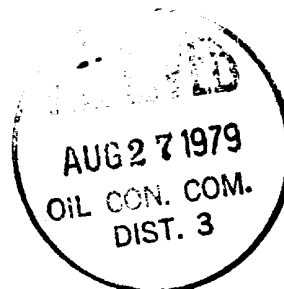

ENERGY RESERVES GROUP, INC.

Re: Offset Operations Notification - Unorthodox Well Location

Gentlemen:

Energy Reserves Group, Inc. as sub-operator of the Gallegos Canyon Unit, Pictured Cliffs Participating Area proposes to drill an unorthodox location for Well Gallegos Canyon Unit #281.

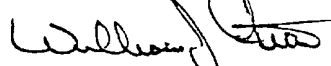

The proposed well site is located 2480' FSL & 2360' FWL of Section 29, T29N-R12W. The purpose of requesting an unorthodox location is because of topographical reasons. The reason for requesting an exception is to stay out of the Navajo Irrigation Project Area. The orthodox location for the well would be interfering with farming operations within the Block One Area of the Irrigation Project. To move the location a sufficient distance to eliminate being in the cultivated area requires an unorthodox site. The site as proposed will be out of the farming land and will not interfere in any way with N.A.P.I. operations.

If you have no objection to the drilling of this well, we would appreciate you signing in the below listed space and forwarding this letter to the New Mexico Oil Conservation Division in Santa Fe.

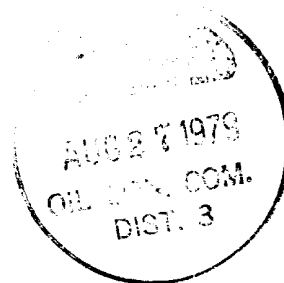

If there are any questions, please call anytime.

Very truly yours,

ENERGY RESERVES GROUP, INC.

William J. Flint
Field Services Administrator

Amoco Production Company has no objection to the proposed unorthodox location as planned by Energy Reserves Group, Inc.
