17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface distances and measured and true vertical depths for all markers and zones pertinent to this work.)*

We request permission to build a 15' x 30' x 5' earthen pit on the above captioned well location. The pit will be utilized for containing the fluids associated with the fracture stimulation of the Graneros Sand, which was approved April 11, 1983. (Please see attached copy of approved Sundry.) The pit will be built in the area of the old reserve pit. No new surface disturbance will be necessary.

Verbal permission was given to Walt West, MOC, by John Keller, BLM O&G, June 22, 1983.
