

#3 Location of Existing Wells:

Two-mile radius map if exploratory, or 1-mile radius map if development well, showing and identifying existing:

- |  |                     |
|--|---------------------|
| (1) Water wells  | None                |
| (2) Abandoned wells                                      | See map Diagram "A" |
| (3) Temporary abandoned wells                            | None                |
| (4) Disposal wells                                       | None                |
| (5) Drilling wells                                       | None                |
| (6) Producing wells                                      | See map Diagram "A" |
| (7) Shut-in wells  | See map Diagram "A" |
| (8) Injection wells                                      | None                |
| (9) Monitoring or observation wells for other resources. |                     |

None

#4 Location of Existing and/or Proposed Facilities:

A. Within 1-mile radius of location show the following existing facilities owned or controlled by lessee/operator:

- |  |                     |
|--|---------------------|
| (1) Tank Batteries   | See map Diagram "A" |
| (2) Production Facilities  | See map Diagram "A" |
| (3) Gathering Lines  | None                |
| (4) Gas Gathering Lines  | None                |
| (5) Injection Lines (Indicate if any of the above lines are buried). | None                |
| (6) Disposal Lines   | None                |

B. If new facilities are contemplated, in the event of production, show:

- (1) Proposed location and attendant lines by flagging if off of well pad.  
Adjacent to the road and as close to the proposed drill site as possible without setting in any fill.  
See Diagram "B"

- (2) Dimensions of Facilities

See Diagram "B"

- (3) Construction methods and materials:

Good engineering practices will be used in the construction of these facilities and materials will be obtained through local vendors and contractors.
