Re: Request for Exception to Well Location Requirements

Gentlemen:

Energy Reserves Group, Inc. respectfully requests approval for the below described well location due to topographical conflicts. The site as originally staked fell in the flood plain of Kutz Canyon Wash. In addition, there is a natural gas pipeline buried just out of the flood plain. The proposed site was moved to its present location to eliminate interference with the pipeline and flood plain. Please see attached plat and topo map for a description of surface features.

E. H. Pipkin Well No. 23

Section 36, T28N-R11W

The Offset Operators were notified by certified mail on July 16, 1981.

If there are any problems or questions please call.

Very truly yours,

ENERGY RESERVES GROUP, INC.
