13. Describe Proposed or Completed Operations

Approval was granted for the plug & abandonment of this Pictured Cliffs well. The said work was not completed due to the fact that partner approval was not received in sufficient time to complete the work before the forest deadline. The Carson National Forest deadline for rig activity begins November 1 and ends March 31. A six month extension is requested until April 1993. The work will then be completed at that time, as originally proposed.

14. I hereby certify that the foregoing is true and correct.
