13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Plans were submitted to temporarily abandon the abovementioned well, but it had too much pressure and the well wouldn't log off. At that time a decision was made to try and get this well back on line. We would like to request an extension on the shut-in status, so we can get a gas pipeline tie-in to the location. Plans are to have the work completed in 1995.
