Dear Mr. Hutchinson and Mr. Schramko:

Reference is made to your application for two kinds of down hole commingling of gas. One from Mesaverde-Dakota formation producing wells and another from Pictured Cliffs-Mesaverde wells in the San Juan 29-6 Unit. We are accepting the 12 month Dakota production forecast for the Mesaverde-Dakota wells and the 12 month Pictured Cliffs production forecast from the Pictured Cliffs-Mesaverde wells you have submitted that are listed below. We also accept the subtraction method of production allocation and the updated forecast submitted on some of the wells marked with an asterisk. After the wells have stabilized please submit the fixed allocation factors that you plan on using for the life of the well along with a starting date.
