

Complete this form in duplicate for submission to the State or Federal agency, or to either a Federal agency or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions for completion of this form and the number of copies to be submitted, particularly with respect to local, area, or national procedures and practices, either are shown below or will be issued by the Federal and/or State office. See instructions on items 21 and 22, below regarding separate reports for separate completions.

If not filed prior to the time this summary record is submitted, copies of all currently available logs (including logs of all type of wells, cased, or uncased) and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see item 25.

Item 24: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 25: Indicate which elevation is used as reference (where not otherwise shown) for depth measurements (given in other spaces on this form and in any attachments). Item 26: If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 24 show the producing interval, or intervals, top(s), bottom(s) and name(s) (if any) for only the interval reported in item 24. Submit a separate report (see item 24) on the form, adequately identified, for each additional interval to be separately produced, showing the additional data pertinent to such interval.

Item 27: "Seals Concept": Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cementing tool.

Item 32: Submit a separate completion report on this form for each interval to be separately produced. (See instruction for items 22 and 24 above.)
