Re: Schalk 29-4 #4
D-32-29N-4W

Dear Mr. Schalk:

The enclosed copy of Form 9-331 indicates that perforations are open above the Kirtland shale in the subject well.

The Form 9-330 indicates a packer is set at 4375 feet.

If these conditions exist, the well is a dual completion and must be approved as per rule 112-A.

If the above described conditions do not exist please file corrected reports immediately.

Yours very truly,

A. R. Kendrick
