13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Plans were submitted in December 1995 to P&A the abovementioned well, but after further evaluation it was determined that another attempt to produce this well was needed. In February 1996, coiled tubing was RIH and the well was cleand out. This attempt to establish production proved unsuccessful. Now PPCo has determined that this well will be P&A'd. Work will begin in the first quarter of 1997 (weather permitting). A new procedure will be submitted before actual work begins.
