RE: Illegal Pits in Northwestern New Mexico
San Juan 29-6 #289, M-02-29N-06W (Dehydrator and Separator pits, both dry)

Dear Ed:

New Mexico Oil Conservation Order R-8952 (for the protection of migratory birds) became effective June 15, 1989 and states that all pits and open top tanks more than 16' in diameter shall be screened, netted or covered. Field inspections conducted on June 24, 1993 revealed that the above mentioned pits require compliance.

Exceptions to the order may be requested for pits which do not generally contain hydrocarbons, by filing Form C-134. No requests for exceptions have been received in this office for these pits.

You are hereby directed to submit exceptions to this office by August 13, 1993. If you have any questions please feel free to call this office.

Sincerely,

Dianna K. Fairhurst

Dianna K. Fairhurst
Deputy Oil & Gas Inspector
