	<input type="checkbox"/> Conversion to Injection
	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

A gas transmission line is proposed to be laid from Texakoma's Texakoma-Rio Arriba #1 to Northwest Pipeline Company's pipeline approximately 1800' (as shown on attached plat). The transmission line will be a 2 7/8", 6.5#, J-55, 8RD tubing which has a working pressure of 7260 psi. We intend to operate the line at +360 psi.

The pipeline tap and meter run is proposed in Sec 10, T29N - R5W, approximately 2450' FSL and 575' FEL of Sec 10, T29N - R5W.
