13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In drilling the above mentioned well we would like to change from the approved Closed Loop System to a Conventional Drilling System. In place of a cuttings ditch, a lined reserve pit (@140' X 55') will be used. The dirt from the reserve pit will be backsploped and saved for use during surface rehab. Drill cuttings will be disposed of in the reserve pit. No other changes are anticipated.
